The Academic Advising Center helps currently enrolled students with their academic futures, from developing an academic plan to choosing the best courses to smoothly transfer to a four-year school. We can also help clarify course requirements or refer you to support services if needed.

Schedule an appointment whenever you face an important academic decision, need information about your academic options, or just want to talk through something that is important to you. Your advisor is "your person" at Kirkwood and forming a supportive relationship with you is core to helping you succeed.
