

FACILITIES

The Cedar Rapids main campus library is located in Benton Hall. There are many places to study on the first and second floors, comfortable seating, study carrels and natural lighting. The second floor is designated as a quiet study area and has several group study rooms.

The Iowa City Location library provides the same services but on a smaller scale. Study space, comfortable seating, individual carrels and a group study room are available. The Iowa City Location computer lab is part of the library space. The library is in the Credit Center Building in the middle of the first floor.
